

# Antioxidants

*Distona offers a broad portfolio of antioxidants for use in plastics, adhesives, paints and coatings. Antioxidants protect your products from thermal and oxidative stress by capturing radicals. The additives themselves become free radicals, but are less reactive through tautomerism and steric hindrance, ideally leading to termination reactions with other radicals.*

Our portfolio includes the following REACH registered products:

Description	CAS	Applications	Description	CAS	Applications
<b>Antioxidant 168</b>	31570-04-4	ABS, Nylon, PE, Polyester, PP, PU	<b>Antioxidant MD1024</b>	32687-78-8	Elastomer, Nylon, PE, PP
<b>Antioxidant 626</b>	26741-53-7	PE-film, tape or PP-film, tape or PET, PBT, PC and PVC	<b>Antioxidant 5057</b>	68411-46-1	Polyurethane foams, Elastomers and Adhesives
<b>Antioxidant 1010</b>	6683-19-8	ABS, PE, PP, PVC, Elastomer, Polyester	<b>Antioxidant 565</b>	991-84-4	BR,IR,SBR,NBR,SIS
<b>Antioxidant 1035</b>	41484-35-9	ABS, PE, PP, PUR, PVA, Elastomer	<b>Antioxidant 245</b>	36443-68-2	HIPS, ABS, MBS, POM ,PA
<b>Antioxidant 1076</b>	2080-79-3	PP, PE, ABS, PU, PS, Elastomer	<b>Antioxidant 1425</b>	65140-91-2	Polyolefins
<b>Antioxidant 1098</b>	23128-74-7	Elastomer, PA, PU	<b>Antioxidant 697</b>	70331-94-1	PE, PP, PS, Polyester, EPDM, EVA and ABS
<b>Antioxidant 1330</b>	1709-70-2	PVC, PU, Elastomers, Adhesives	<b>Antioxidant BHT</b>	128-37-0	diverse
<b>Antioxidant 3114</b>	27676-62-6	Elastomer, Polyester, PA, PE, PP, PU
